

Warm this Winter 

Now in its 14th year, our **Warm this Winter** appeal has raised over £267,000, which demonstrates our community's generosity.

With energy prices rising this winter, your support is more crucial than ever and enables us to provide life-changing funds to local charities.

## BAK UP CIC

BAK UP CIC used a grant from the Warm this Winter Fund to provide a warm space and group activities to older and vulnerable residents during Winter.

The activities they provided to beneficiaries included table tennis, arts and crafts, and knitting.

## AGE UK

To prevent the dangers caused by old and faulty electric blankets, Age UK Northamptonshire used their grant to run electric blanket testing and replacement sessions for 40 older people during Winter.

The group also fit 100 smoke detectors in older peoples homes.

## DONATE NOW

Donate to our Warm this Winter appeal and help us ensure those who are less fortunate can stay warm, safe and healthy this winter.

All donations will make a big impact to help improve the lives of those in need. Visit our Warm this Winter 2024 campaign on Justgiving or scan the QR code.
